What Police Really **CAN'T DO** when you are stopped, and why people are tricked to letting Police search your vehicle? **You have rights during a traffic stop or any police encounter. Learn what your rights are and use them before you lose them!**

Mr. Merkatz had been arrested along with two other fellow locksmiths for using a name similar to another larger competitor; a name he maintains was legally registered under Florida law. Merkatz always said if anything this case was a CIVIL matter that should have been handled in a Civil Court. Merkatz said that every day of the week a company comes out with a product or service, and another company changes it slightly and sells or advertises it. "No one has **EVER** been arrested for that," said Merkatz.

Merkatz has hired a prominent ghostwriter, Robert Nahas, of WriterServices.net, to help write this book titled "Wrongly Charged". Merkatz decided to write this book to help others who were "Wrongly Charged" or "Wrongly Convicted" of crimes.

As this book is being written, the author is making his best effort to show how his life was unnecessarily turned upside down because of "cracks" in our legal system that allow for anyone to abuse it if they choose to. "Things can quickly get out of hand," says Merkatz, "and the only option you have is to dig your way out with crippling, ever-mounting legal fees." Every day you turn on the news someone is being released from jail for a crime that they were "Wrongly Convicted" of.

A spokesperson for Prominent Books had this to say about the publishing deal: "As part of our business model, we want to be an adequate instrument for individuals in allowing them the opportunity to have their side of the story told. We never take sides but rather feel strongly that a story like this needs to be made available, and then the readers can decide for themselves right from wrong, and what is fair, unjust or deserving."

A great deal of attention has been on this case, as videos online about it have received almost 200,000 views in less than 90 days. David Merkatz has received invitations by TV and radio stations to appear as a guest. "Wrongly Charged" will be available the first quarter of 2015. The Book is expected to generate record sales based on the number of inquiries received to date.

The Book will be featured on the Thompson Reuters Sign in Times Square New York.
